---

## THE STYLE

---

A taste for architecture, balanced volumes, pure white, simple lines balanced with sensitivity ? The Harmonie collection embodies all the values that were dear to the early settlers of New England.

---

## THE QUALITIES

---

Neither retro, nor design... It is the perfect compromise for those looking for a chic and timeless modernity.

---

## DISPLAY GUIDELINES

---

The Harmonie collection can be mixed in several styles like chic ambiances, seaside houses or industrial lofts. It should ideally be showcased with natural decorative objects.

---

## MANUFACTURE & FINISH

---

2 materials: Pinus Radiata and MDF

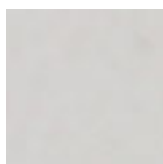

The furniture's body is made of high quality MDF (E1) for a good patina performance over time but also an ease of use due to the lack of wood work. Pinus radiata is used for the furniture base, a true guarantee of solidity.

Furniture are made in one block and in accordance with craftsman methods of the XVIth century such as the Tenon and Mortise technique which ensures, for the assembling of the frames, the sturdiness of furniture for a daily use.
